This Current Awareness Bulletin is produced by the Yeovil Academy Library to provide staff with a range of obesity-related resources to support practice. It includes recently published guidelines and research articles, as well as news and policy items.

Cochrane Systematic Reviews

Interventions for weight reduction in obesity to improve survival in women with endometrial cancer
Sarah Kitson, James MN Duffy, Neil Ryan, Michelle L MacKintosh and Emma J Crosbie
Online Publication Date: January 2017

Guidelines

Rapid weight gain during infancy and subsequent adiposity: a systematic review and meta-analysis of evidence.
Obesity reviews: an official journal of the International Association for the Study of Obesity 2017

Association between obesity and periodontal disease. A systematic review of epidemiological studies and controlled clinical trials.
Medicina oral, patologia oral y cirugia bucal 2017

Effects of probiotics on body weight, body mass index, fat mass and fat percentage in subjects with overweight or obesity: a systematic review and meta-analysis of randomized controlled trials.
Obesity reviews: an official journal of the International Association for the Study of Obesity 2017

Obesity (Silver Spring, Md.) 2017

Environmental characteristics of early childhood education and care centres and young children's weight status: A systematic review. 

Preventive Medicine 2017

Effect of Bariatric Surgery on Thyroid Function in Obese Patients: a Systematic Review and Meta-Analysis. 

Obesity Surgery 2017

The accuracy of neck circumference for assessing overweight and obesity: A systematic review and meta-analysis. 

Annals of Human Biology 2017

Central obesity and the Mediterranean diet: A systematic review of intervention trials. 

Critical reviews in food science and nutrition 2017

Association between pre-pregnancy overweight and obesity and children’s neurocognitive development: a systematic review and meta-analysis of observational studies. 

International journal of epidemiology 2017

Comment on: Systematic review and retrospective validation demonstrate prediction models can predict weight loss after bariatric surgery. 

Surgery for obesity and related diseases: official journal of the American Society for Bariatric Surgery 2017

Diet quality and depression risk: A systematic review and dose-response meta-analysis of prospective studies. 

Journal of Affective Disorders 2017

Abdominal Obesity and Colorectal Cancer Risk: Systematic Review and Meta-Analysis of Prospective Studies.
