This Current Awareness Bulletin is produced by the Yeovil Academy Library to provide staff with a range of continence-related resources to support practice. It includes recently published guidelines and research articles, as well as news and policy items.

### Systematic Reviews

**How does any upright position compare with supine position for women in the second stage of labor without epidural anesthesia?**

**Can combining pelvic floor muscle training with other treatments help women with urinary incontinence?**

**Can pelvic floor muscle training improve signs and symptoms of urinary incontinence in women?**

**In women with vaginal prolapse, what are the benefits and harms of transvaginal mesh or grafts compared with native tissue repair?**

**How do mid-urethral sling operations compare with each other for the treatment of urinary stress incontinence in women?**

**Does the use of risk assessment tools help prevent the development of pressure ulcers?**

---

**Single-incision sling operations for urinary incontinence in women**
Arjun Nambiar, June D Cody, Stephen T Jeffery and Patricia Aluko
Online Publication Date: July 2017

**Urethral injection therapy for urinary incontinence in women**
Vivienne Kirchin, Tobias Page, Phil E Keegan, Kofi OM Atiemo, June D Cody, Samuel McClinton and Patricia Aluko
Online Publication Date: July 2017
Open retropubic colposuspension for urinary incontinence in women
Marie Carmela M Lapitan, June D Cody and Atefeh Mashayekhi
Online Publication Date: July 2017

Pelvic floor muscle activity during impact activities in continent and incontinent women: a systematic review. International urogynecology journal 2017

A Pragmatic Randomized Controlled Trial Examining the Impact of the Retzius-sparing Approach on Early Urinary Continence Recovery After Robot-assisted Radical Prostatectomy EvidenceUpdates 2017
