

Mental Health

Relevant articles from MA Healthcare journals to support your staff's education and practice

May 2018

Ensuring optimal care for mental health is an increasingly important concern for healthcare professionals today. It is essential for maintaining the physical health and well-being of patients of all ages – children, adolescents and adults. We have provided a list of relevant articles from MA Healthcare journals dealing with this area, thereby providing your NHS staff with research, information and tips that will support both their work and the care of their patients
