

## Emergency Care

With the increase in patient numbers and those with conditions relating to chronic illnesses, aging, and mental health, Emergency Departments are facing an ever-growing and more complex demand for services. To deliver high-quality and cost-effective care, whilst maintaining equality of access to all patients, professionals across the team need the knowledge to make correct assessments and the confidence to effectively manage emergency conditions. We have provided a list of relevant articles from MA Healthcare

journals dealing with this area, thereby providing your staff with research, information and tips that will support both their work and the quality of care for their patients.

### British Journal of Cardiac Nursing

- Clinician assessment of acute coronary syndrome in the emergency department  
<https://doi.org/10.12968/bjca.2018.13.10.498>  
Published Online: October 04, 2018

- Initial assessment and management of stroke  
Published Online: 27 Feb 2018  
<https://doi.org/10.12968/bjca.2018.13.3.121>

Acute coronary syndromes—the role of the CCU nurse. Part I: Initial management  
<https://doi.org/10.12968/bjca.2016.11.9.453>  
Published Online: 7 Sep 2016

- Acute coronary syndromes—the role of the CCU nurse. Part II: A look at inpatient recovery and discharge  
<https://doi.org/10.12968/bjca.2016.11.11.544>  
Published Online: 4 Nov 2016

### British Journal of Healthcare Management

- Improving patient flow in an emergency department  
<https://doi.org/10.12968/bjhc.2018.24.10.486>
