

Diet and Nutrition - 2

Whether in hospital, community or residential care settings, effective medical treatment and long-term recovery relies upon good nutrition and hydration. As the dignity and well-being of the patient takes on greater importance, the understanding of right nutrition will be essential to the work of health professionals across the NHS. We have provided a list of relevant

articles from MA Healthcare journals dealing with this area, providing your staff with research, information and tips that will support both their work and the quality of care for their patients.

British Journal of Cardiac Nursing

- Dietary education provision within a cardiac rehabilitation programme in the UK: a pilot study
