

Child Health

Investing knowledge and resources in child health ensures both effective treatment and care for young patients as well as a future healthy adult population. Health professionals today are required to deal with a range of physical, emotional, and cognitive issues, including care for children with special education needs. We have provided a list of relevant articles from MA Healthcare journals dealing with this area, providing your staff with research, information and tips that will support both their work and the quality of care for their patients.

British Journal of Child Health

- Exposure of children to television food advertisements: an observational analysis
Published Online:16 Feb 2021
<https://doi.org/10.12968/chhe.2021.2.1.31>
- Socialisation, masculinity and adolescence
