

Cancer - 2

Cancer remains one of the most devastating conditions affecting millions of people in the UK each year. Though survival rates are improving, there is an increasing number of people diagnosed with the condition, and a greater shift towards after-care is required. We have provided a list of recent and relevant articles from MA Healthcare journals dealing with this area, thereby providing your NHS staff with research, information and tips that will support both their work and their patients.

British Journal of Healthcare Assistants

Cervical cancer screening programme

Published Online:6 Nov 2019

<https://doi.org/10.12968/bjha.2019.13.11.526>

Bowel cancer screening programme
